

INFANTRY OPERATIONS CHIEF COURSE PROGRAM OF INSTRUCTION

PREFACE

1. This course is designed to train Marines in the knowledge and skills required to perform as an infantry operations chief in an infantry battalion. A Marine receives training in ground combat element operations, unit training management, fire support coordination, Marine Corps planning process, and the use of the Command and Control Personal Computer (C2PC) system. Upon successful completion of this course, a Marine is capable of performing as an infantry operations chief in an infantry battalion.

2. All agencies and commands receiving graduates from this course are requested to review the contents of this POI and evaluate the performance of graduates against Operating Force's requirements. Comments and recommendation may be submitted to:

Commanding Officer
School of Infantry
PSC Box 20161
Camp Lejeune, North Carolina 28542-0161

3. This course has been submitted for inclusion in the current edition of the Formal Schools Catalog, NAVMC 2771.

SECTION I - COURSE DESCRIPTIVE DATA

1. COURSE TITLE. Infantry Operations Chief Course
2. LOCATION.
 School of Infantry
 Training Command
 PSC Box 20161
 Camp Lejeune, North Carolina 28542-0161
3. COURSE ID. M030399
4. OTHER SERVICE COURSE NUMBER. N/A
5. MILITARY ARTICLES AND SERVICE LIST NUMBER. N/A
6. PURPOSE. The purpose of this program of instruction is to provide a Marine with the knowledge and skills required to perform as an infantry operations chief in an infantry battalion.
7. SCOPE. This course is designed to train Marines in the knowledge and skills required to perform as an infantry operations chief in an infantry battalion. A Marine receives training in ground combat element operations, unit training management, fire support coordination, Marine Corps planning process, and the use of the Command and Control Personal Computer (C2PC) system. Upon successful completion of this course, a Marine is capable of performing as an infantry operations chief in an infantry battalion.
8. LENGTH (PEACETIME). 20 Training Days
9. CURRICULUM BREAKDOWN (PEACETIME).
 181.25 Academic Hours
 23.00 Demonstration
 14.00 Guided Discussion
 53.75 Lecture
 58.00 Practical Application
 27.00 Performance Exam
 5.50 Written Exam

 56.00 Administrative Hours
 2.00 In-Processing
 10.00 Weekly Academic Performance Counseling
 40.00 Supervised Extra Study
 2.00 Out-Processing
 1.00 Formative End of Course Student Evaluation
 1.00 Graduation
10. LENGTH (MOBILIZATION). 0 Training Days
11. CURRICULUM BREAKDOWN (MOBILIZATION).
 0.00 Academic Hours

 0.00 Administrative Hours
12. MAXIMUM CLASS CAPACITY. 18
13. OPTIMUM CLASS CAPACITY. 12
14. MINIMUM CLASS CAPACITY. 8
15. CLASS FREQUENCY. 3

INFANTRY OPERATIONS CHIEF COURSE PROGRAM OF INSTRUCTION

SECTION I - COURSE DESCRIPTIVE DATA

16. STUDENT PREREQUISITES.

- a. The Marine must be a Master Sergeant or Master Gunnery Sergeant. Senior Gunnery Sergeant's may attend on a space available basis.
- b. The Marine must be an 0369 infantryman.
- c. The Marine must be an active or reserve member of the Marine Corps.
- d. The Marine must meet Marine Corps height, weight, and body fat standards.
- e. The Marine must not possess any physical or emotion issues that may prevent him from completing the course.
- f. The Marine must be attached TAD to Advanced Infantry Training Company, School of Infantry, Camp Lejeune, North Carolina for the duration of the course.

17. MOS RECEIVED. None.18. QUOTA CONTROL. TRNG COM (C475)19. FUNDING. TECOM (C464)20. REPORTING INSTRUCTIONS.

SECTION I - COURSE DESCRIPTIVE DATA

APPENDIX B - TASKLIST

DUTY: 0399.01 UNIT TRAINING MANAGEMENT

TASKS: (C) 0399.01.01 Evaluate a mid-range unit training plan

DUTY: 0399.02 COMBAT OPERATIONS CENTER OPERATIONS

TASKS: (C) 0399.02.01 Supervise the set up of a combat operations center
(C) 0399.02.02 Sustain operations for a combat operations center

DUTY: 0399.03 FIRE SUPPORT COORDINATION

TASKS: (C) 0399.03.01 Construct a basic fire support plan
(C) 0399.03.02 Coordinate a request for fire support from a subordinate unit

DUTY: 0399.04 MARINE CORPS PLANNING PROCESS

TASKS: (C) 0399.04.01 Develop an operations plan
(C) 0399.04.02 Compile an operations order
(C) 0399.04.03 Develop an overlay for an operations order

DUTY: 0399.05 COMMAND AND CONTROL PERSONAL COMPUTER (C2PC)

TASKS: (C) 0399.05.01 Perform basic Command and Control Personal Computer functions
(C) 0399.05.02 Utilize Command and Control Personal Computer maps
(C) 0399.05.03 Manage a TrackPlot database
(C) 0399.05.04 Create an operations overlay using Command and Control
Personal Computer software

TASK LIST NOTES: None.

MOBILIZATION (0 TRAINING DAYS)

In the event of mobilization, this course will be stood down so that resources may be utilized elsewhere to support the mobilization effort.

INFANTRY OPERATIONS CHIEF COURSE PROGRAM OF INSTRUCTION

SECTION III - SCOPE OF ANNEXES

- A. GROUND COMBAT ELEMENT OPERATIONS. The purpose of this annex is to educate the Marines in the concept of ground combat element operations. The Marine is educated in the theory of expeditionary maneuver warfare, the operational employment of a Marine Air-Ground Task Force, ground combat element offensive tactics, ground combat element defensive tactics, and tactical control measures.
- B. UNIT TRAINING MANAGEMENT. The purpose of this annex is to provide the Marine with knowledge and skill in the evaluation of a battalion level mid-range training plan. The Marine receives education in the process for developing a mid-range training plan for an infantry battalion and in evaluating a mid-range training plan that supports the unit METL and commander's intent, and is aligned with MCO 3501.34, Infantry Training and Readiness Manual.
- C. COMBAT OPERATIONS CENTER OPERATIONS. The intent of this annex is to educate the Marine in the set up, operation, and displacement of a combat operations center (COC). The Marine receives education in the process for standing up a COC; the physical arrangement of a COC; the duties and responsibilities of all personnel assigned to the COC; responsibilities of a watch officer in a COC; and the displacement options for a COC.
- D. FIRE SUPPORT COORDINATION. The purpose of this annex is to educate the Marine in the process of conducting fire support planning and in the processing of a request for fire for a ground combat element of a Marine Air-Ground Task Force. The Marine develops a complete fire support plan for an organic infantry battalion and processes a request for fire from a subordinate unit in accordance with the fire support plan.
- E. MARINE CORPS PLANNING PROCESS. The intent of this annex is to educate the Marine in the mission planning process for a ground combat element of the Marine Air-Ground Task Force. The Marine develops an operations plan for an infantry battalion mission assigned by higher; compiles a complete operations order; and constructs an operations overlay for a completed operations plan.
- F. COMMAND AND CONTROL PERSONAL COMPUTER (C2PC). The intent of this annex is to provide the Marine with knowledge and skill in utilizing the Command and Control Personal Computer (C2PC) program. The Marine conducts basic operations, loads maps, manages a Trackplot database, and constructs an operations overlay utilizing the Command and Control Personal Computer (C2PC) software program.
- Z. ADMINISTRATIVE. The purpose of this annex is to capture the administrative time required for the conduct of this program of instruction.

INFANTRY OPERATIONS CHIEF COURSE PROGRAM OF INSTRUCTION

SECTION IV - CONCEPT CARDS

1. A concept card is developed to describe each academic or administrative block of time during a course. These concept cards are then grouped into subject areas, called annexes, which are summarized in Section III. Annexes A through Y are reserved for academic lessons and exams. Annex Z is reserved for administrative time.
2. The following information is contained on each academic concept card in Section IV:
 - a. Heading. The heading listed at the top of the concept card includes the name of the course, the section of the POI, and the letter and title of the annex to which the lesson or exam is assigned.
 - b. Lesson/Exam ID. This designator is a unique code assigned to this specific lesson or exam within this course.
 - c. Hours. This number (carried to the second decimal place) depicts the amount of time required to conduct the lesson or exam once, even if it is presented multiple times to smaller groups of students.
 - d. Title. This is the title assigned to this lesson or exam. It should refer to the subject matter covered in the lesson or exam when possible.
 - e. Phase (optional). This is a code depicting the phase (e.g., week, month, etc.) of the course during which this lesson or exam takes place.
 - f. Group (optional). This is a code depicting the instructional group or section responsible for teaching or developing this lesson or exam.
 - g. Methods,Hours,S:I Ratio. Displayed on the concept card are codes which symbolize the methods of instruction used to present this lesson or exam. Following each method code is the time (in hours) allocated to that method and the student to instructor ratio associated with that period of time. (The hours and ratios depicted on the concept card are used to determine instructor staffing requirements.) The following is a comprehensive list of methods used in this course and their respective codes:

<u>Method</u>	<u>Code</u>
Administrative	ADMIN
Demonstration	D
Guided Discussion	GD
Lecture	L
Practical Application	PA
Performance Exam	X(P)
Written Exam	X(W)

- h. Media. Displayed on the concept card are codes which symbolize the media used to support this lesson or exam. The following is a comprehensive list of media used in this course and their respective codes:

<u>Medium</u>	<u>Code</u>
Actual Item/Object	AIO
Handout	HO
Multimedia Presentation	MP
Mockup	MU
Workbook	WBK

- i. Learning Objective(s)/Lesson Purpose. Academic concept cards contain either learning objectives or a lesson purpose statement, but not both.

(1) Learning Objective. A learning objective describes a behavior that students are expected to perform following instruction, not necessarily identical to a behavior performed on the job. It also details the conditions under which that behavior is performed and the minimum standards of acceptable performance. A student masters the objective when his or her performance equals or exceeds the standard. (Information

INFANTRY OPERATIONS CHIEF COURSE PROGRAM OF INSTRUCTION

SECTION IV - CONCEPT CARDS

concerning student evaluation and mastery is contained in Section V of this POI.)

(a) Terminal Learning Objective (TLO). One, and only one, TLO is written for each task in Section I-B of the POI. The behavior in the TLO duplicates the actual behavior required on the job, modified only if the constraints of the academic environment will not allow it. A TLO should only appear on a concept card for a lesson or exam during which students actually perform the TLO. Each TLO is assigned a numeric designator identical to the designator of its corresponding task in Section I-B, which is identical to the designator of the Individual Training Standard (ITS) from which the task was derived. This designator is located in parentheses at the end of the TLO.

(b) Enabling Learning Objective (ELO). ELOs are designed to teach students the knowledges and skills required for successful performance of the TLOs. Each ELO is placed only on concept cards for lessons or exams during which students actually perform the ELO. Many introductory lessons will contain only ELOs. Each ELO is assigned the same numeric designator as the TLO it supports, followed by a unique combination of one or two letters. This designator is located in parentheses at the end of the ELO. (The first 26 ELOs are assigned the letters "a" through "z" consecutively. If there are more than 26 ELOs, they are assigned the letters "aa" through "az," then "ba" through "bz," etc.)

(2) Lesson Purpose. A lesson purpose statement is recorded on a concept card where no learning objectives are appropriate (e.g., overview, orientation, or enrichment lesson) and the lesson is not to be evaluated. The lesson purpose statement clearly describes the rationale for presenting the lesson.

j. Ammunition Requirements. Whenever a lesson requires the use of ammunition by students or by the instructional staff in support of the lesson, the concept card for that lesson will include a table depicting those requirements. Included for each type of ammunition will be its Department of Defense Identification Code (DODIC), its nomenclature, the average number of rounds used by each student, and the number of support rounds.

k. Notes (optional). This section of the concept card contains any information pertinent to the lesson. Examples of items which may be addressed here are instructor requirements, scheduling notes, special prerequisites, references to tests on which material will be evaluated, etc.

l. References. This section contains the source documents used for development of the lesson or other references which relate to the lesson. At a minimum, it must contain all documents referenced in the learning objectives included on the concept card.

3. The following information is contained on each administrative concept card in Section IV :

a. Heading. The heading listed at the top of the concept card includes the name of the course, the section of the POI, and the fact that this concept card is part of Annex Z, Administrative Time.

b. Event ID. This designator is a unique code assigned to this administrative event within the course.

c. Hours. This number (carried to the second decimal place) depicts the amount of administrative time required for this event. If this is a repeating event, one concept card may indicate the cumulative hours associated with this event throughout the course.

d. Event. This is a short description of the administrative event.

e. Notes (optional). This section of the concept card contains any information pertinent to the administrative block of time.

INFANTRY OPERATIONS CHIEF COURSE PROGRAM OF INSTRUCTION

SECTION IV - CONCEPT CARDS

4. The following pages contain useful information for locating the learning objectives and lessons that make up this course.

a. Location of Learning Objectives Report. This report lists, by learning objective designator, all learning objectives developed for this course. It also identifies every concept card on which each learning objective is included.

b. Academic and Administrative Summaries. These reports list, by annex, all academic and administrative concept cards in Section IV. Within each annex the concept cards are listed in lesson identifier order. The information provided for each entry includes Identifier, Title, Hours, and Type [Task-oriented lesson (T), Lesson Purpose lesson (LP), Exam (E), or Administrative Time (ADM)]. A subtotal of hours is provided for each annex and for all academic and administrative concept cards. Total POI hours are listed at the end of the Administrative Summary.

ENABLING LEARNING OBJECTIVE(S):

1. Given higher's fire support guidance, review higher's fire support guidance by determining fire support requirements necessary to meet the operational needs of the commander's concept of operation in accordance with FMFM 6-18. (0399.03.01i)
2. Given fire support requirements and list of available fire support assets, allocate fire support assets in accordance with FMFM 6-18. (0399.03.01j)
3. Given the commander's concept of operations, conduct targeting for the area of operation by creating a target list in accordance with FMFM 6-18. (0399.03.01k)
4. Given the commander's concept of operations, conduct targeting for the area of operation by creating a target list worksheet in accordance with FMFM 6-18. (0399.03.01l)
5. Given a target list and/or target list worksheet, effect coordination of fire support in accordance with FMFM 6-18. (0399.03.01n)
6. Given all required information, prepare a fire support plan in accordance with FMFM 6-18. (0399.03.01o)
7. Given a fire support plan, overlay material, map, protractor, and map pens, construct a fire support overlay in accordance with FMFM 6-18. (0399.03.01p)
8. Given a fire support plan, disseminate a fire support plan in accordance with FMFM 6-18. (0399.03.01q)
9. Given a fire support plan, adjust a fire support plan in accordance with FMFM 6-18. (0399.03.01r)

NOTE(S):

INFANTRY OPERATIONS CHIEF COURSE

SECTION IV - CONCEPT CARDS

ANNEX D - FIRE SUPPORT COORDINATION

EXAM ID: IOCC0402P

HOURS: 8.00

TITLE: Fire Support Plan Performance Examination

1. For the performance examination, Marines work together as two-man teams to develop a fire support plan for an infantry battalion.
2. Upon completion of the performance examination, each two-man team will brief their fire support plan and then receive feedback for improvement from the instructors and class.

Graduation accounts for the time required to formally conduct a ceremony graduating Marines from the course.

INFANTRY OPERATIONS CHIEF COURSE PROGRAM OF INSTRUCTION

SECTION V - STUDENT PERFORMANCE EVALUATION

1. SCOPE OF EVALUATION. There are two types of evaluation used to measure mastery in the Infantry Operations Chief Course. Objectives are measured by performance examination requiring the Marine to perform the task under conditions similar to those encountered on the job or by written examination requiring the Marine to demonstrate their ability to comprehend or apply critical knowledge.
2. PERFORMANCE EXAMINATION. All performance based learning objectives are evaluated through a performance examination. The requirement for the achievement of mastery is annotated on each performance item or performance checklist.
3. WRITTEN EXAMINATION. A written examination consists of a representative sample of test items from one or more learning objectives. A Marine must receive a score of eighty percent on a written examination to achieve examination mastery.
4. COURSE MASTERY. A Marine must master each written and performance examination to achieve course mastery. Failure to demonstrate mastery of an examination in the Marine's first attempt results in the Marine receiving counseling, remedial instruction, and an additional opportunity to demonstrate mastery. Failure to again demonstrate mastery results in additional counseling and remediation, and a third attempt to demonstrate mastery. Failure to demonstrate mastery after the third attempt constitutes an examination failure and requires that the Marine's performance be reviewed by a Student Performance Board (SPB). The SPB reviews the Marine's overall academic performance and makes a recommendation to the Commanding Officer, School of Infantry regarding the Marine's potential to continue in the course. The Commanding Officer, School of Infantry retains discretion over the dismissal of a Marine from the course.
